Brewer

Dental Seating

Ergonomically designed to support the health of your practice.

Delivering the Power of Neutral Posture

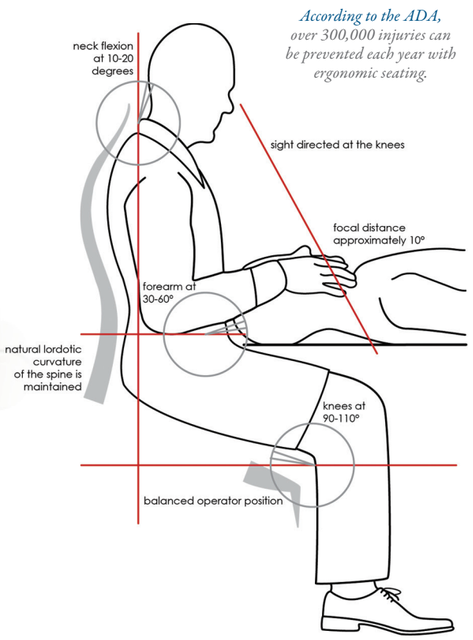
Musculoskeletal Disorders are a pervasive problem for dental professionals.

MSDs can cost a practice more than $67,000 per incident.[1] *They have been documented to affect more than 80% of all dental professionals and are known to shorten careers and erode a practice's bottom line. Prolonged sitting in poorly designed stools will result in muscular fatigue and can contribute to musculoskeletal pain and injuries.*

Proper posture is critical to the long-term health and productivity of your dental team.
The risk of injuries involving the back, neck and shoulders can be greatly reduced by working in Neutral Posture – a balanced, upright position with your weight evenly distributed. In addition, appendages are neither moved away from the body's midline, nor laterally turned or twisted.

Model 9000BST shown in Black Satin upholstery with arms (part #101282) sold separately

Designed to make a difference.
Working in conjunction with Marquette University, Brewer has analyzed working conditions in the dental operatory. Through extensive testing and observation, we have pin pointed the proper seating mechanics needed to more effectively meet the strenuous demands of dental professionals. The results of these efforts are a line of highly advanced, ergonomic seating solutions specially designed to help safeguard the very backbone of your practice.



According to the ADA, over 300,000 injuries can be prevented each year with ergonomic seating.

So be sure to take a good look at all the ways Brewer adds value to your practice.

Advancing Ergonomic Innovation to Enhance Your Comfort

Specializing in breakthroughs that matter.

From carefully researched design refinements to entirely new concepts in seating, Brewer is constantly working to offer you the most advanced, most comfortable seating solutions in the industry.

Most are features we introduced to the market, and many remain exclusives to this day. One thing they all have in common is our commitment to provide you with the ultimate dental seating experience to keep you more productive all day, every day.

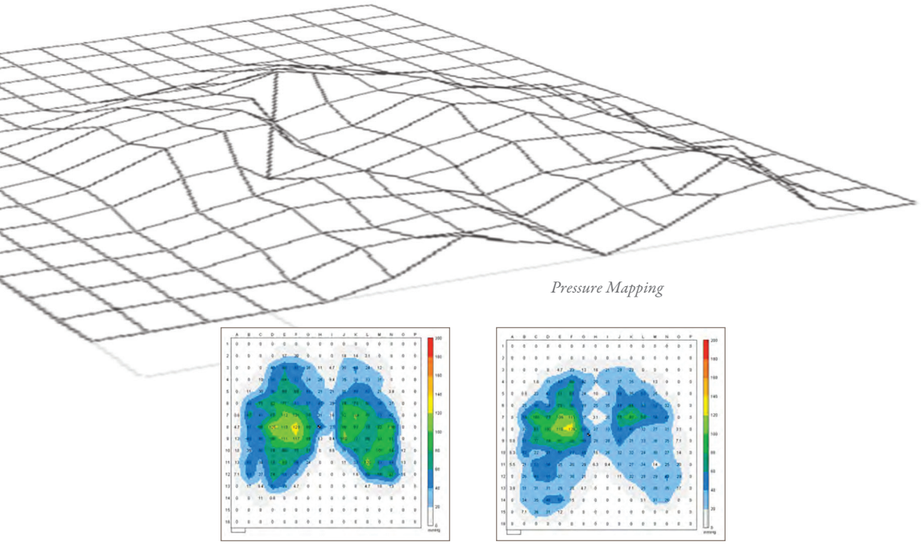
Dual Dynamic Motion Technology.
Brewer is the first in the industry to incorporate Dynamic Motion Technology into both the seat and backrest. Now, you get two ways to engage your core as you work to promote back health.

Patented, Dynamic Saddle Technology.
This Brewer exclusive combines a seat design that naturally supports neutral posture with full 360° tilt to help strengthen your core as you work.

Seat tilt and lumbar support.
Helps maintain the ideal low-back curve, *decrease disc pressure**, enable closer positioning to the patient with less muscle strain and may help reduce low-back pain.

Unmatched pressure management & comfort.
HybriGel™ Foam is a Brewer exclusive in the industry. This gel-infused memory foam supports the body for superior pressure relief, while its open cell structure dramatically increases airflow for greater cooling comfort.

Model 9120BL shown in Deep Sapphire upholstery



Pressure Mapping

Without HybriGel - Avg. Pressure = 49

With HybriGel - Avg. Pressure = 36.9

Premium Ergonomic Seating – 9000, 9100 & 9200 Series

In sync with your comfort and productivity needs.

Unlike most dental stools, our Premium Ergonomic Series seating features continuous, synchronized movement of the saddle-style seat and lumbar support. This combination allows for proper weight distribution and encourages neutral posture throughout your typical range of motion to help prevent fatigue and promote muscular health. All our Premium Ergonomic Seating now features independent backrest adjustment at the touch of your fingertips to comfortably allow a greater range of movement. Plus, all models feature our exclusive HybriGel™ Foam for unmatched pressure management and cooling comfort, a 250-lb weight capacity, and a standard 5-year warranty.

9000 Series

The original ergonomic stool offers thick, plush upholstery with a deeper, cut out seat and full-size backrest.

Dentist/Hygienist Model

Available in your choice of column heights to fit the seat to your stature for maximum comfort.

9000B - Seamless upholstery – Standard height
9000BST - Stitched upholstery – Standard height

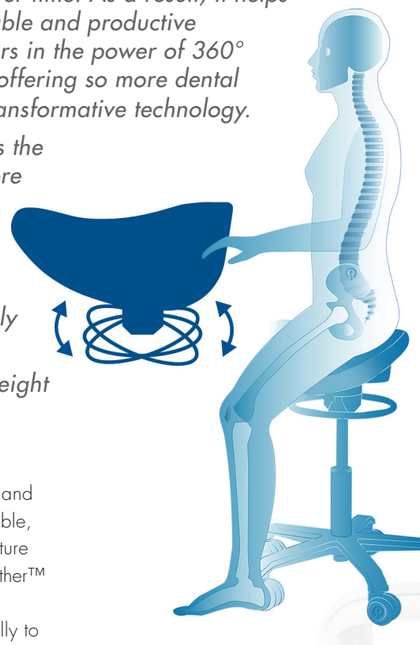
Dynamic-Motion Saddle-Seat Technology

Exclusive capability promotes back health.

Brewer is the only U.S. manufacturer to offer 360° Dynamic Motion technology. This ergonomic capability is designed to engage coremuscles in order to help strengthen back muscles over time. As a result, it helps keep dentists and hygienists more comfortable and productive throughout the day. We're such big believers in the power of 360° Dynamic Motion that we've expanded our offering so more dental professionals can take advantage of this transformative technology.

***360° Dynamic-Motion technology** allows the freedom of movement that helps engage core muscles. Adjustable design enables you to limit the range of motion initially. Then, gradually increase the range of motion over time to continue strengthening core muscles, supporting enhanced comfort, daily productivity and career longevity.*

All Brewer saddle seats feature a 250-lb weight capacity and a standard 5-year warranty.



In partnership with Score® – seats to suit

Our latest saddle seats are available in two seat sizes and a choice of seating height ranges to assure a comfortable, personal fit for virtually any dental professional. All feature a comfy, ultra-cushioned seat in your choice of Ultraleather™ upholstery in Raven Wing, Dove Gray or Papyrus*.
The ergonomically shaped saddle tilts the pelvis naturally to improve spinal posture and enhance long-term comfort.

Amazone Series

Features a narrower seat and a choice of two height ranges specifically designed to accommodate smaller-framed dental professionals.

Model 135ASB Amazone in Raven Wing

Models

135 Amazone Models*	Adjustable Height Range	Recommended User Height
135ASG	24″-32″	5′ 3″-5′ 11″
135ASB	24″-32″	5′ 3″-5′ 11″
135ASP	24″-32″	5′ 3″-5′ 11″
135ASG-L	21″-27″	Under 5′ 3″
135ASB-L	21″-27″	Under 5′ 3″
135ASP-L	21″-27″	Under 5′ 3″

Jumper Series

Features a wider seat and a choice of two height ranges specifically designed to accommodate taller, larger-framed dental professionals.

Model 135JSG Jumper in Dove Gray

Models

135 Jumper Models*	Adjustable Height Range	Recommended User Height
135JSG	24″-32″	5′ 3″-5′ 11″
135JSB	24″-32″	5′ 3″-5′ 11″
135JSP	24″-32″	5′ 3″-5′ 11″
135JSG-H	27″-37″	Over 5′ 11″
135JSB-H	27″-37″	Over 5′ 11″
135JSP-H	27″-37″	Over 5′ 11″

* G - Dove Gray B - Raven Wing P - Papyrus *(for Models 135 Amazone and Jumper only)*

Model 135ASP Amazone shown in Papyrus upholstery

Model 135JSB Jumper shown in Raven Wing upholstery

Split Saddle Seat design

Patented split saddle seat design eases the load on the back muscles by distributing weight over the "sit bones" while the angle of the saddle results in wider hip abduction to enhance posture, naturally align vertebrae & disks, and relieve shoulder and neck tension.

135DSS Series

Available in three height ranges so an optimal 135° angle of the knee can be achieved in order to naturally straighten the spine and minimize back muscle strain.

Model 135DSS in Taupe

Models

135DSS Models	Adjustable Height Range	Recommended User Height
135DSS	22.5″-29.75″	5′ 3″-5′ 11″
135DSS-L	18.75″-23.75″	Under 5′ 3″
135DSS-H	24″-33.75″	Over 5′ 11″

Accessories

312670 - Optional pressurized locking casters (set of 5)

Colors may vary slightly depending on printing setting. For actual material swatches call 1•888•Brewer•1
