

Brewer Access™ High-Low Exam Table

Leading the way in patient & staff safety.

As the latest clinical and exam rooms solutions offering now available, Brewer understands that today's new healthcare reality presents a host of challenges to your clinical, financial and operational success. That's why we work closely with medical professionals to develop the power table advancements that matter.

This leadership aims to enable healthcare practitioners to simply and safely manage their patients, increase staff and patient satisfaction, contain the associated cost burdens of workplace injury, and enhance clinical efficiency.

- **Enhance patient and staff safety** – Set new standards in ADA-compliant safe-patient handling and protect your caregivers' backs and your bottom line from workers compensation claims.
- **Preserve patient dignity and enhance patient satisfaction** – Instill elderly, disabled and bariatric patients with a sense of independence they won't experience with other solutions.
- **Keep pace with changing patient population requirements** – Accommodate a wider range of patients with advancements that include the first power exam tables to offer a 700 lb. weight capacity.
- **Lower total cost of ownership; greater ROI** – Industry-leading warranties and more standard features mean more value, while allowing you to optimize clinical efficiency and flexibility in compact exam rooms.

Access™ High-Low Exam Table

FLEX™ Access™ Exam Table

Assist Power Procedure Table™

Brewer

Delivering advanced patient care for the health of your practice.

Brewer leads the way in the clinical and exam room solutions category with our comprehensive line of power procedure and exam tables. Each product is designed around the unique needs of

physicians, nurses, and patients and offers the innovative technology and patented features that increase the safety, efficiency, and comfort of your healthcare environment.
